The Pace Law School Environmental Law Society

The National Association of Environmental Law Societies

Friday, March 24, 2006

10:00 a.m. to 3:00 p.m.

The New York State Judicial Institute

On the campus of Pace Law School in White Plains, New York

Contact Megan Smith at msmith1@law.pace.edu for more information

and to RSVP by Tuesday, March 21.

The focus of the program is helping colleges and universities in the region become “climate neutral.” The campus climate neutral concept was developed by the National Association of Environmental Law Societies and includes a goal of reducing green house gas emissions by about 70 percent. This is an ambitious goal that we all realize can not happen overnight but the purpose of the conference is to stimulate colleges and universities to think more about their green house gas emissions and to begin taking concrete steps to reduce these emissions.

Featuring:

Dr. Mingfang Ting, Columbia University, Doherty Senior Research Scientist
